UNIVERSITÀ DEGLI STUDI

Rédaction: *Via S. Zeno, 31 – 56100 Pisa* (*Italie*).

Administration: « *Archives italiennes de Biologie* » – *Università – Lungarno A. Pacinotti, 43 – 56100 Pisa* (*Italie*).

Imprimerie: « *E. Ariani* » *e* « *L'Arte della Stampa* » – *50135 Firenze* (*Italie*).

TABLES DES MATIÈRES

FASCICULE 1, FÉVRIER 1975

1. Mesencephalic projections of the rectus lateralis muscle afferents in the cat. R. M. Alvarado-Mallart, C. Batini, C. Buisseret, J. P. Gueritaud and G. Horcholle-Bossavit. Pag. 1

2. The neuron of the fast conducting system in hirudo medicinalis: identification and synaptic connections with primary afferent neurons. P. Bagnoli, M. Brunelli, F. Magni and M. Pellegrino 21

3. The proprioceptive activation of stretch tension in pretibial flexor muscles induced by stimulation of antagonistic muscle afferents. K.-H. Sontag, P. Wand, H. Cremer and B. Mühlberg 44

4. Convergence of afferent impulses from individual semicircular canals on pontine reticular units. L. Petrosini, D. Troiani and E. Manni 63

5. A further study of the inhibitory processes induced by the activation of the preoptic hypnogenic structure. F. Bremer 79

FASCICULE 2, JUIN 1975

1. Réflexes monosynaptiques et polysynaptiques crâniens au cours du cycle veille-sommeil du chat chroniquement implanté. J. P. Ternaux, P. Frappa et J. J. Puizillout. Pag. 89

2. Modulation of hydra attenuata rhythmic activity. Photic stimulation. C. Taddei-Ferretti and L. Cordella . . . 107

3. Ultrastructure of dorsal root projections in the toad spinal cord. An experimental neuroanatomical study following transection of dorsal root. N. Corvaja and M. Pellegrini. 122

4. Responses of nucleus *z* neurons to vibration of hindlimb extensor muscles in the decerebrate cat. P. C. Magherini, O. Pompeiano and J. J. Seguin . . . . . Pag. 150

5. R. Bianconi (1927-1972) 188

Analyses 191

FASCICULE 3, JUILLET 1975

1. Pharmacological and electrophysiological characteristics of neurones in the paramedian reticular nucleus. G. L. Avanzino, P. B. Bradley and J. H. Wolstencroft . . Pag. 193

2. Response of Renshaw cells to sinusoidal stretch of hindlimb extensor muscles. O. Pompeiano, P. Wand and K.-H. Sontag. 205

3. The relative sensitivity of Renshaw cells to orthodromic group Ia volleys caused by static stretch and vibration of extensor muscles. O. Pompeiano, P. Wand and K.-H. Sontag . . 238

4. The sensitivity of Renshaw cells to velocity of sinusoidal stretches of the triceps surae muscle. O. Pompeiano, P. Wand and K.-H. Sontag 280

5. A simple technique for thermal stimulation of single semicircular canals. R. Mancinelli 295

Analyses 301

FASCICULE 4, DÉCEMBRE 1975

1. Apomorphine pecking in the pigeon. M. Brunelli, F. Magni, G. Moruzzi and D. Musumeci . . . . . Pag. 303

2. Light and electron microscopic studies on the excessive growth of sympathetic ganglia in rats injected daily from birth with 6-OHDA and NGF. L. Aloe, E. Mugnaini and R. Levi-Montalcini 326

3. Étude électrophysiologique et histologique des fibres afférentes splanchniques. F. Ranieri, J. Crousillat et N. Mei . . 354

4. Mechanical transduction in the Golgi tendon organ: a hypothesis. J. E. Swett and T. W. Schoultz 374
